

# A long history and a bright future

UnitedHealthcare salutes Foster Benefit Resources on their 25th anniversary in business, and thanks them for their 24-year partnership. We know that we're both committed to the same ideals: helping to provide our mutual clients with health care coverage that meets their needs, and backing it up with excellent service.

Foster is proud to offer UnitedHealthcare plans. Ask your representative about the plans and programs that might be right for your business.

## In our industry, service is key.

Both Foster and UnitedHealthcare are there for you, with dedicated, knowledgeable service. And we've made it easier for you to get the answers and assistance you need, whenever you need it. With the purchase of any UnitedHealthcare plan, you receive access to an innovative Web-based resource that lets you administer your plan, check on claims, and pay your bills—in real time, on your time.

## Understanding what matters most

When it comes to health care, we know the two biggest factors you consider are the health of your employees and your own bottom line. UnitedHealthcare has a full portfolio of plans that offer quality and value, so it never comes down to "either/or." UnitedHealthcare also provides a host of extras for your employees: programs designed to help them achieve important health goals, track their health care-related spending, find the right doctors, and manage their own coverage. All at no additional cost to you or them.
